

Poetic Dreams

Don't know why roses are red or violets blue? Kreativeworkz is here to help you. This South Florida-based company will create a personalized poem on food-crafted paper and frame it with archival museum-quality silver, gold or platinum frames imported from Italy. If you really want to impress the misses or mister, opt to have your love verses created using Reality Rhyming. This method uses each letter of a person's name written downward in acronym form to unfold a distinct and inspirational poetic story. Prices range from \$250-\$1,000. To forever transfer your feelings to paper this Valentine's Day, visit Kreativeworkz.com.
